MEMORANDUM FOR: Deputy Director of Central Intelligence  
FROM : SA/DCI/IA  
SUBJECT : Testimony on Narcotics for HFAC Hearing, 22 April 1982

1. We have retyped both your statement and talking points, incorporating the changes that you indicated. In addition, I attempted to make the talking points a little more readable.

2. Both items have been prepared with the speech ball because I was not quite sure in my mind which one you were actually planning to use. I am assuming at this point that you will pass out copies of the statement and essentially give it orally, reserving the more detailed talking points for backup. [redacted] will have multiple copies of the shorter statement for distribution at the hearing. 25X1

3. I hope that your material is adequate for your needs tomorrow. Since the hearing is not until the afternoon, we can make further modifications tomorrow morning if necessary.
